# Private Treatment Fees

## General Information

Every treatment is specific to each patient so these prices are only a guide. We provide every patient with a plan detailing the treatment they require and the costs.

## Other Treatments

Dental treatment is bespoke, so a list of every treatment available would run to thousands and would be confusing. Only the most familiar treatments are listed here. If you are interested in a treatment you don't see listed please ask.

## Our promise to you

At Pure Dental Care we will:

Advise you how to achieve and maintain good oral health

Provide you with treatment options

Explain why a treatment is necessary and what it involves

Provide you with a full treatment plan and a written estimate of costs before your treatment

Take the mystique out of dentistry by using terminology our patients understand

## Payments and charges

- ✓ It is our practice policy to give patients full information about the cost of their dental work before any treatment is undertaken. A full price list can be obtained from Reception.
- ✓ A written estimate and treatment plan will be provided for all dental treatment.
- ✓ You may pay for your dental care by cheque, cash, or credit/debit card.
- ✓ We try to make payment as straightforward as possible. Our policy is that patients are expected to pay for their treatment at the first appointment prior to commencement of treatment; the only exception to this is for crown, bridge and denture work where the final balance will be payable at the impression appointment.
- ✓ Future appointments will not be made until payment has been made in full.
- ✓ Any late payments could be subject to administration charges
- ✓ A Dental Care Plan is available at the practice to help spread the cost of treatment into monthly payments.
- ✓ An interest free payment plan is also available (ask reception or your dentist for further information)

## Private Treatment Fees
